long time ago»

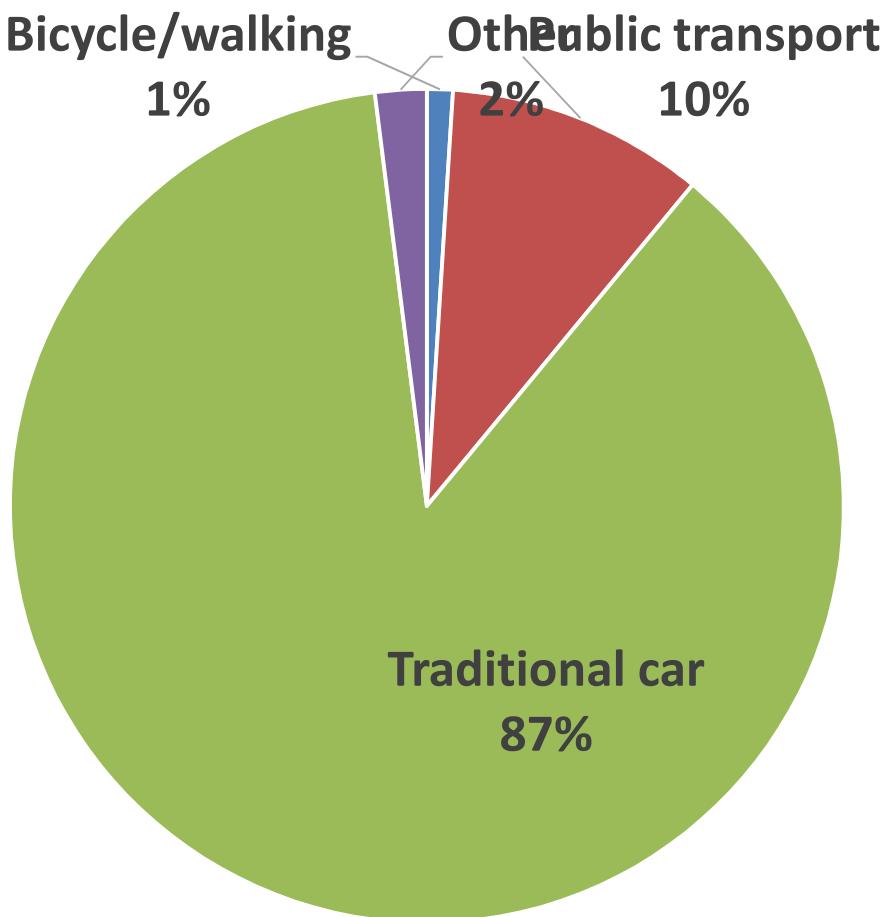

What's the most important incentives?

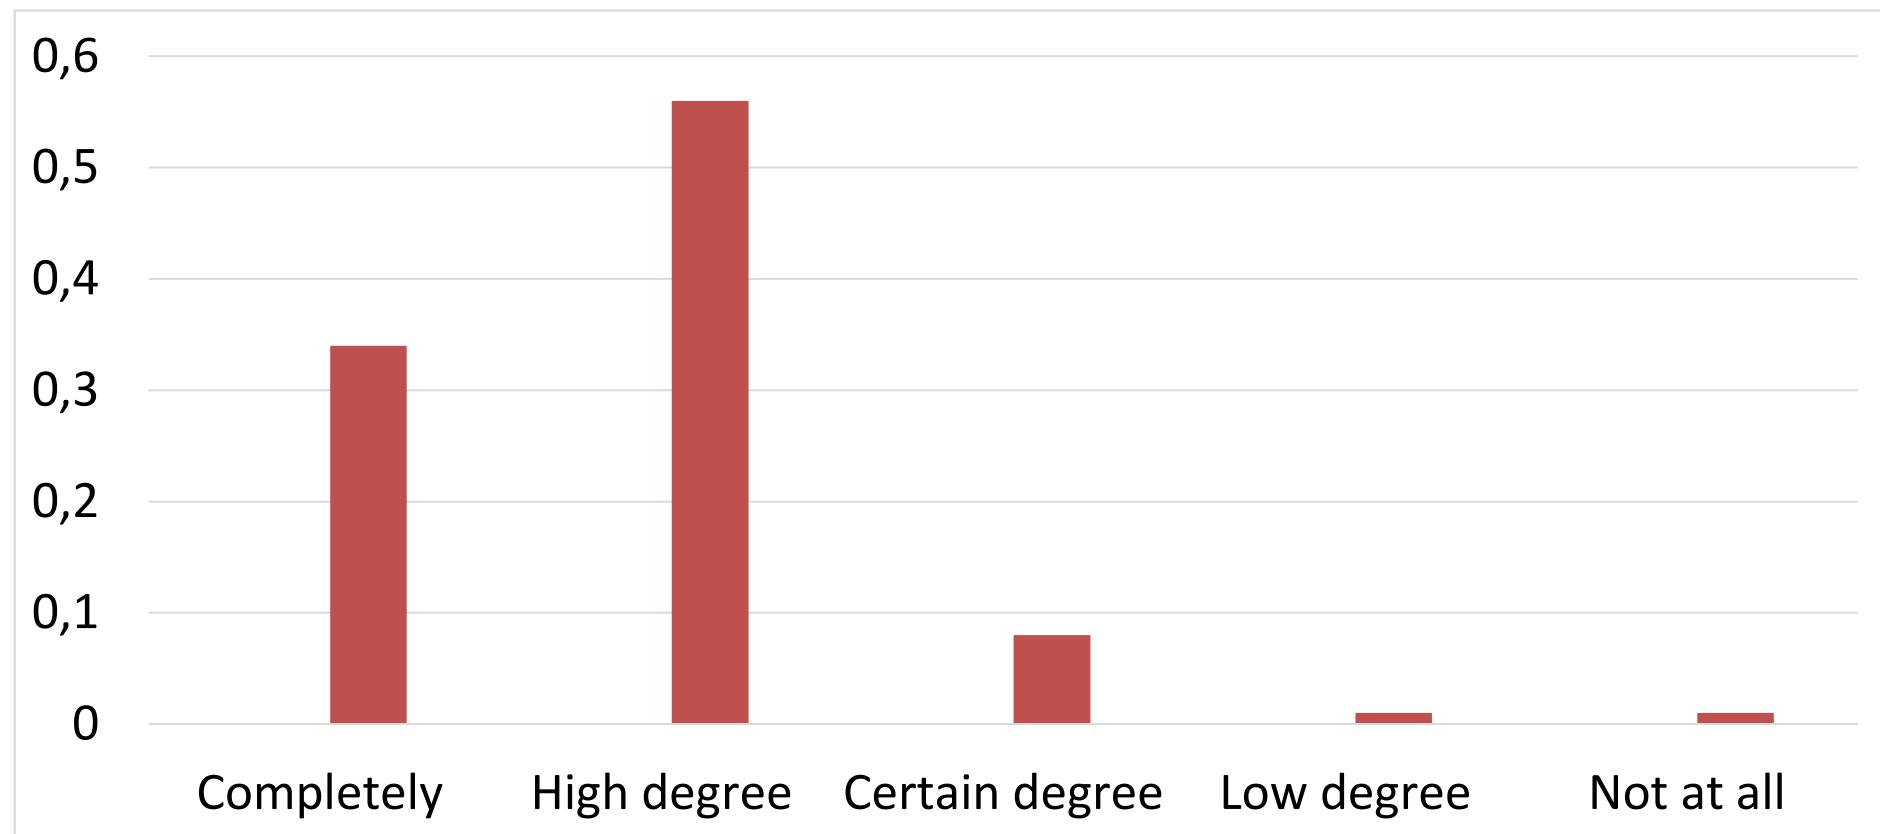

Elbilforeningen

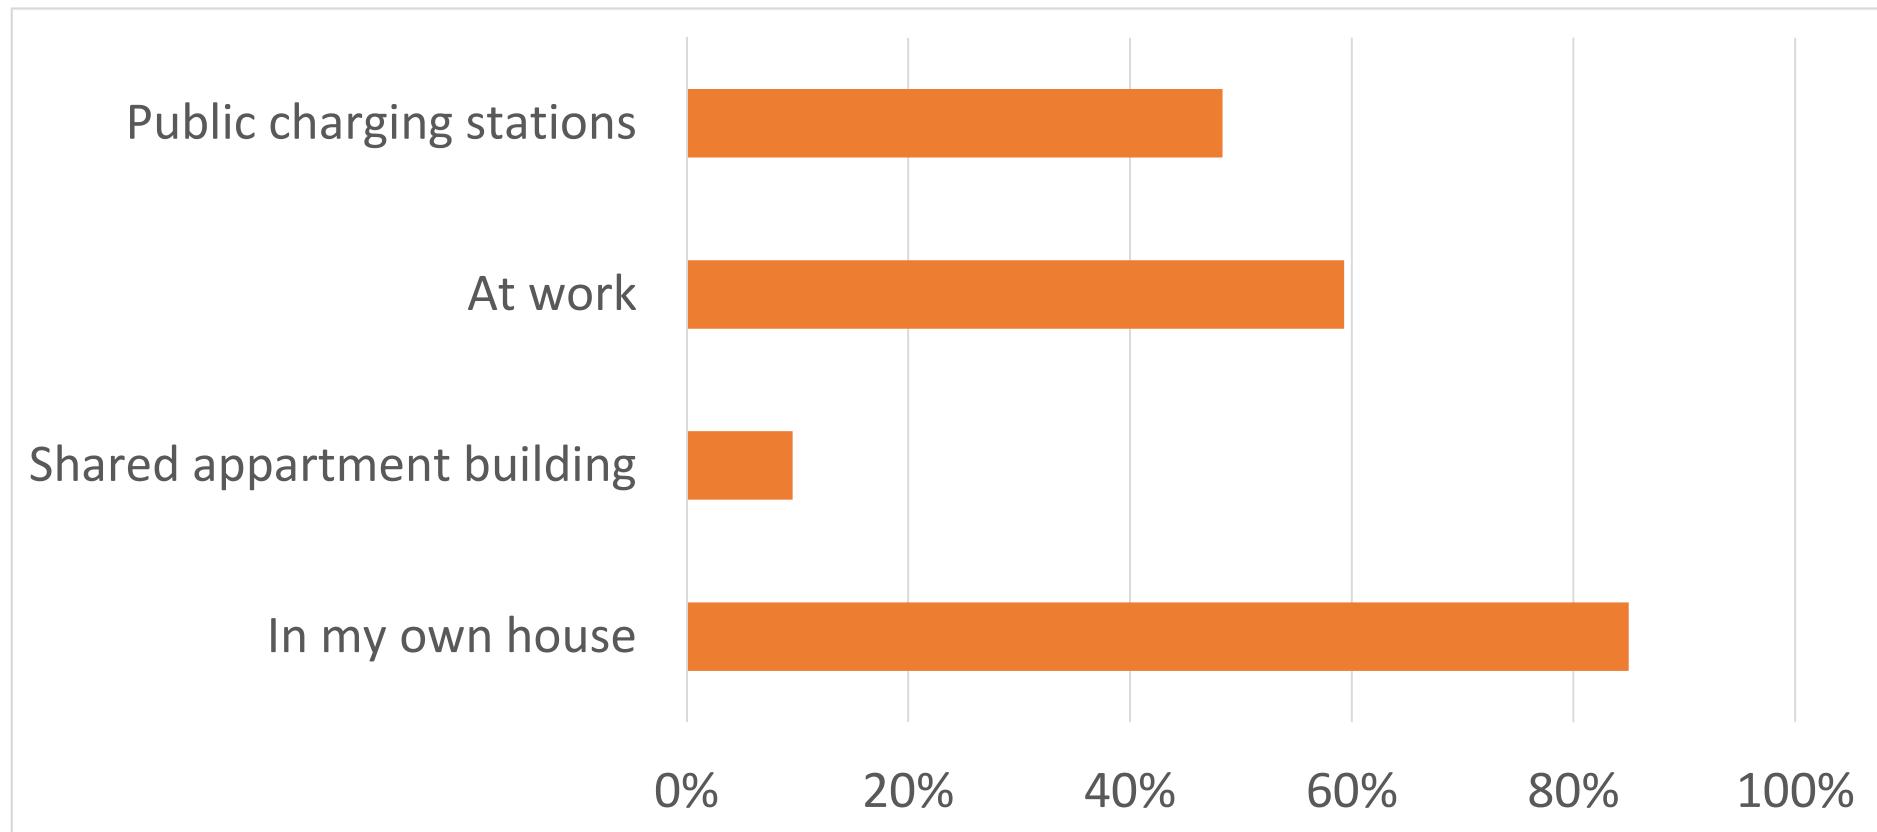

My EV replaces for the most part

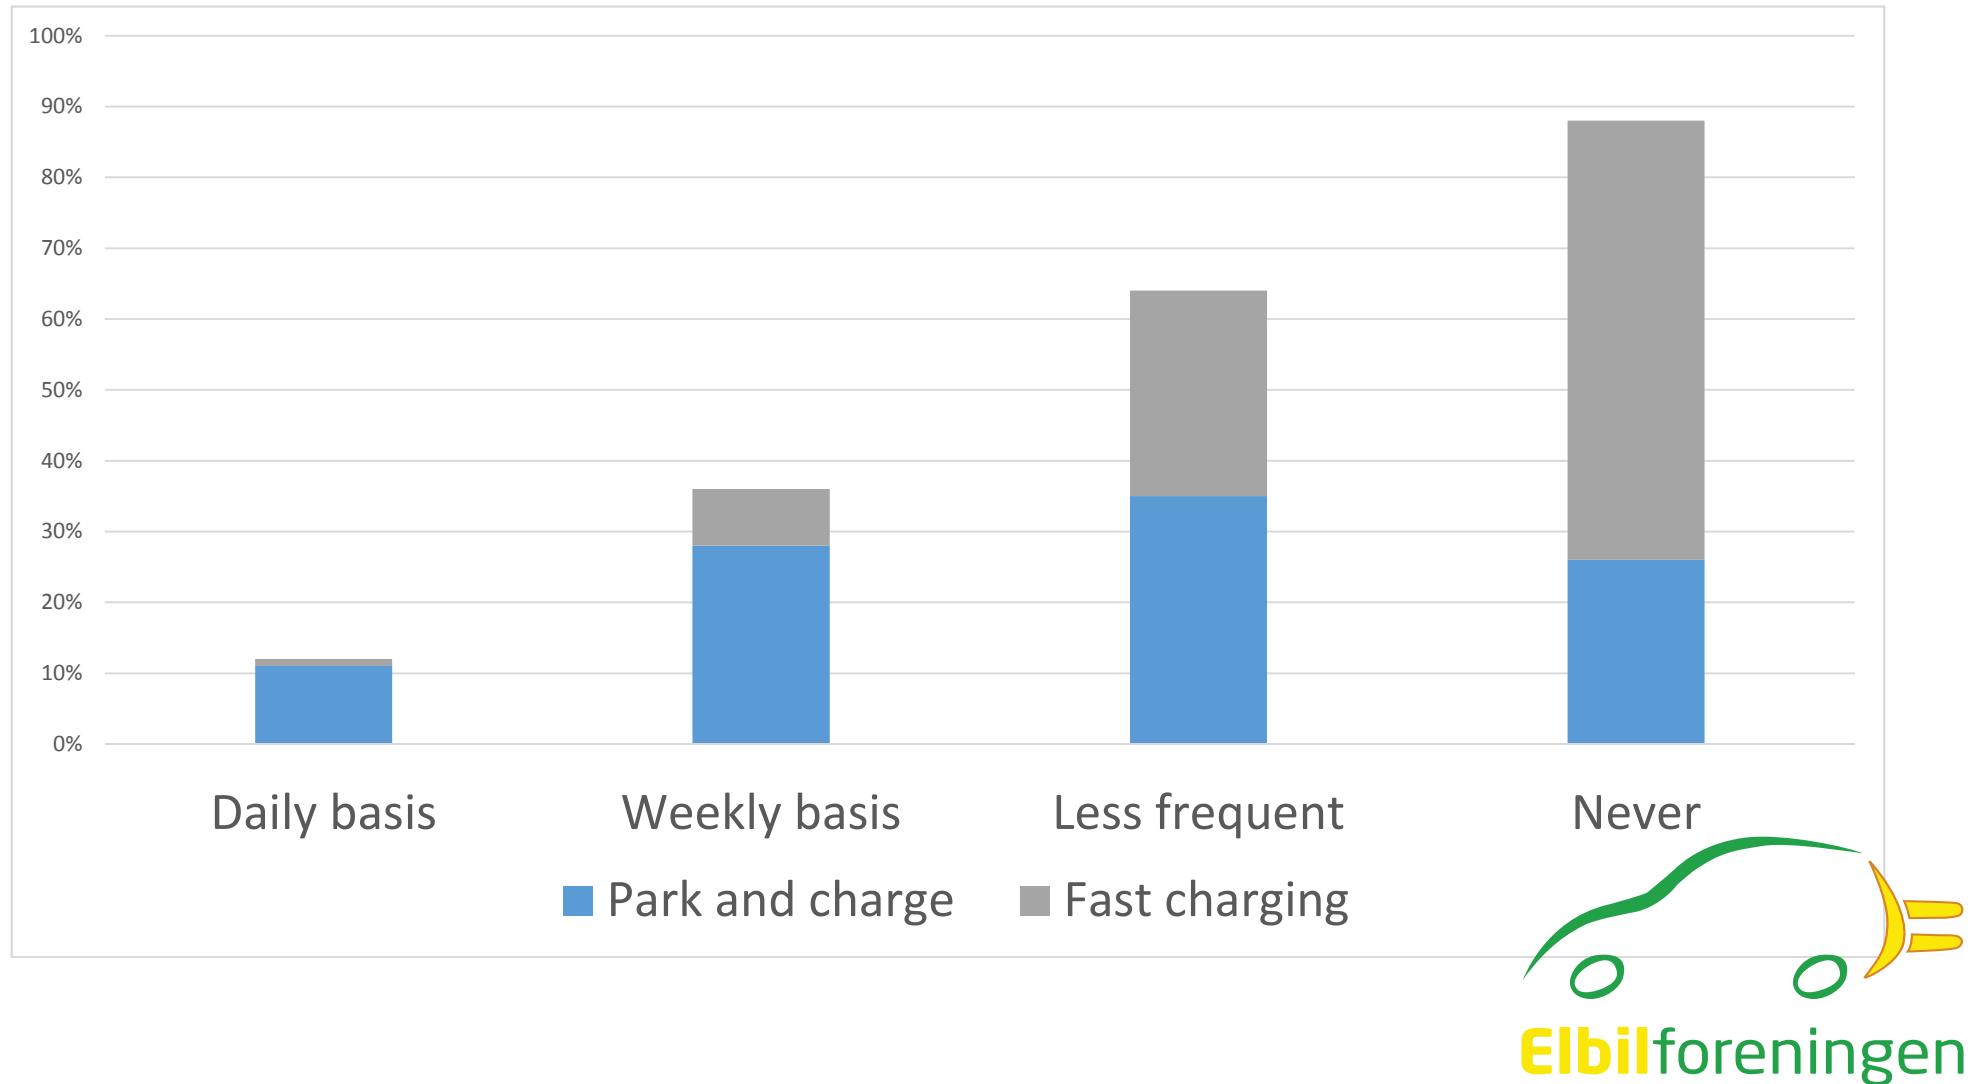

EV replacement of traditional car in daily use

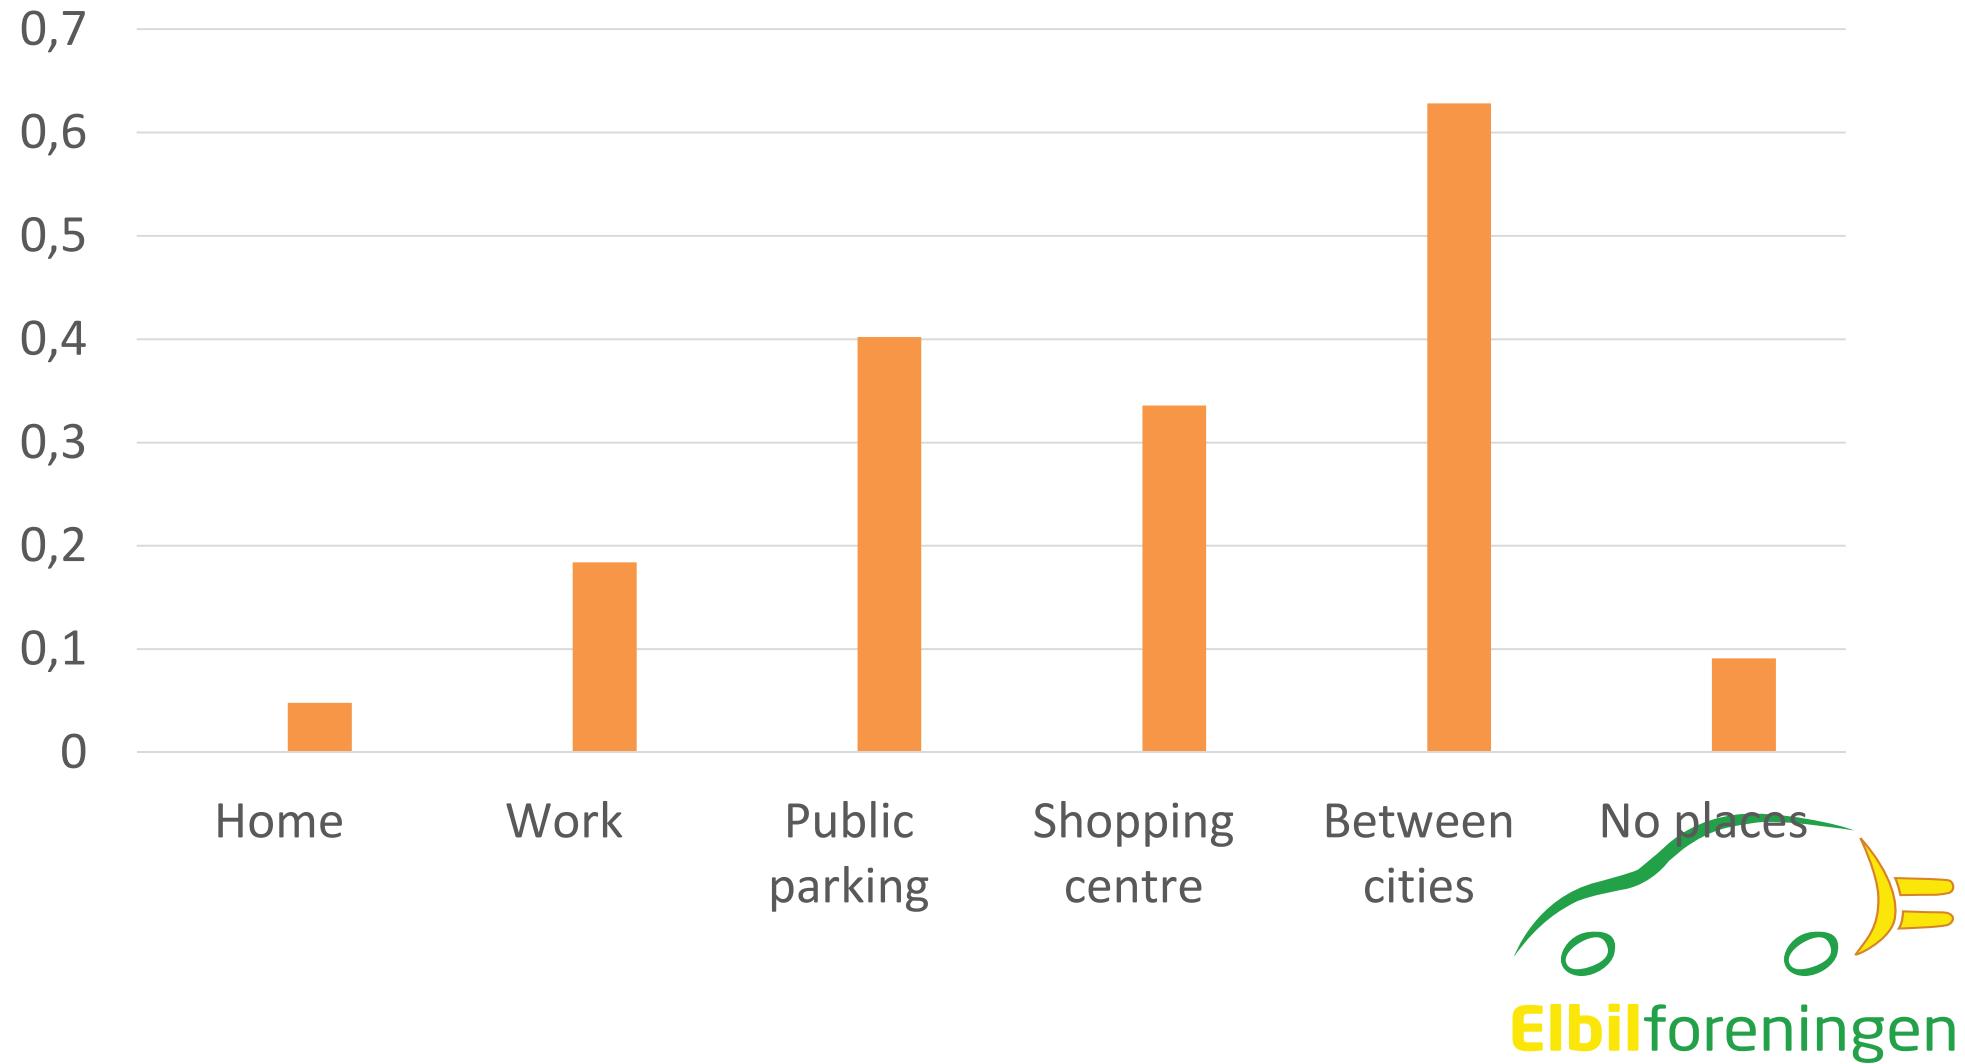

I can charge my electric car

How often did you use public charging stations last month?

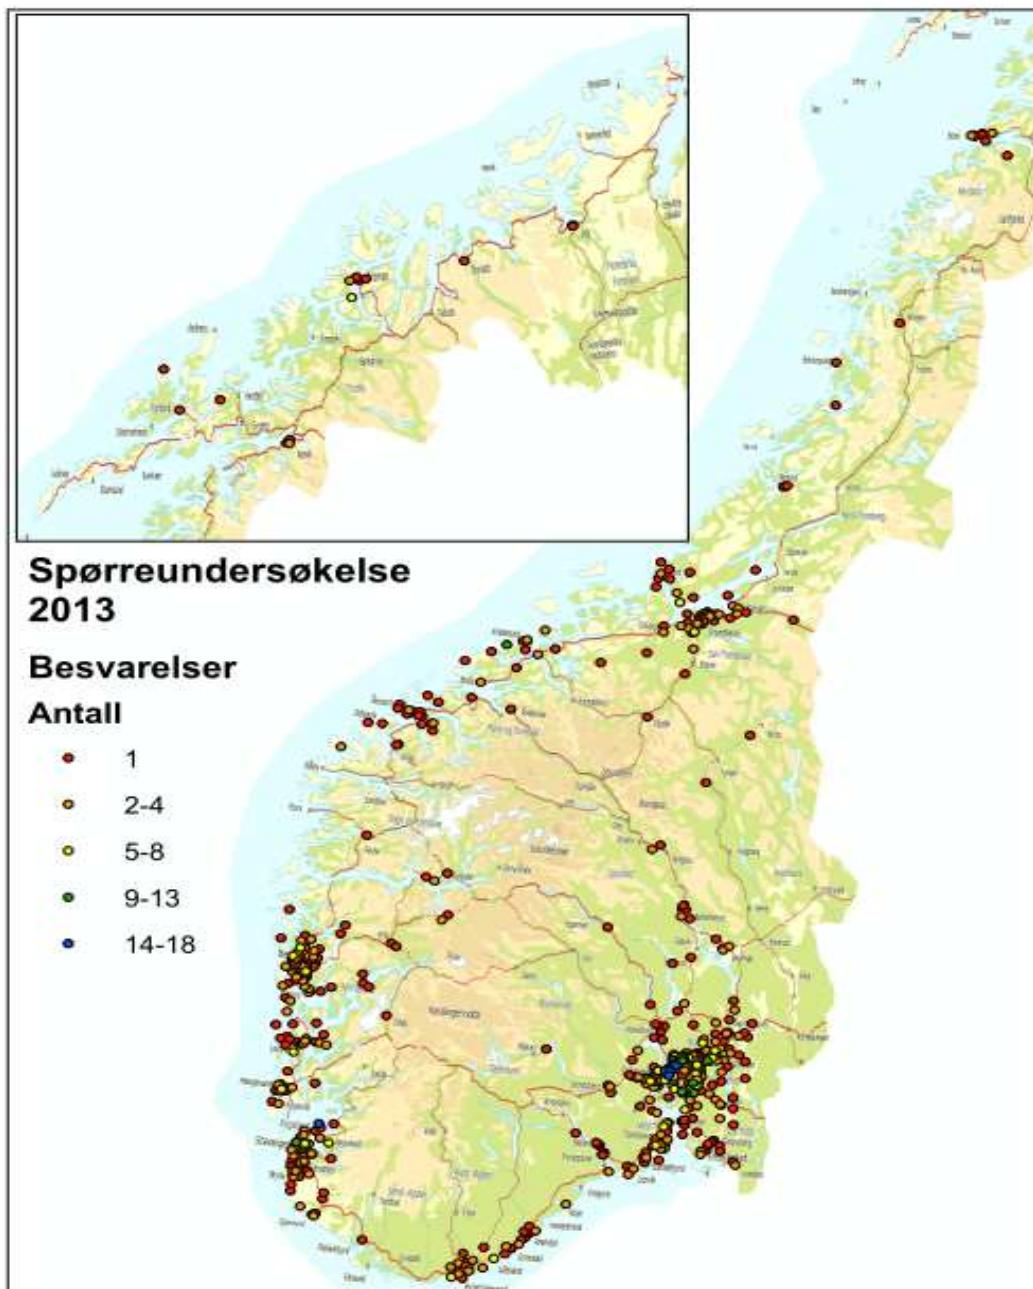

Where do you miss charging stations?

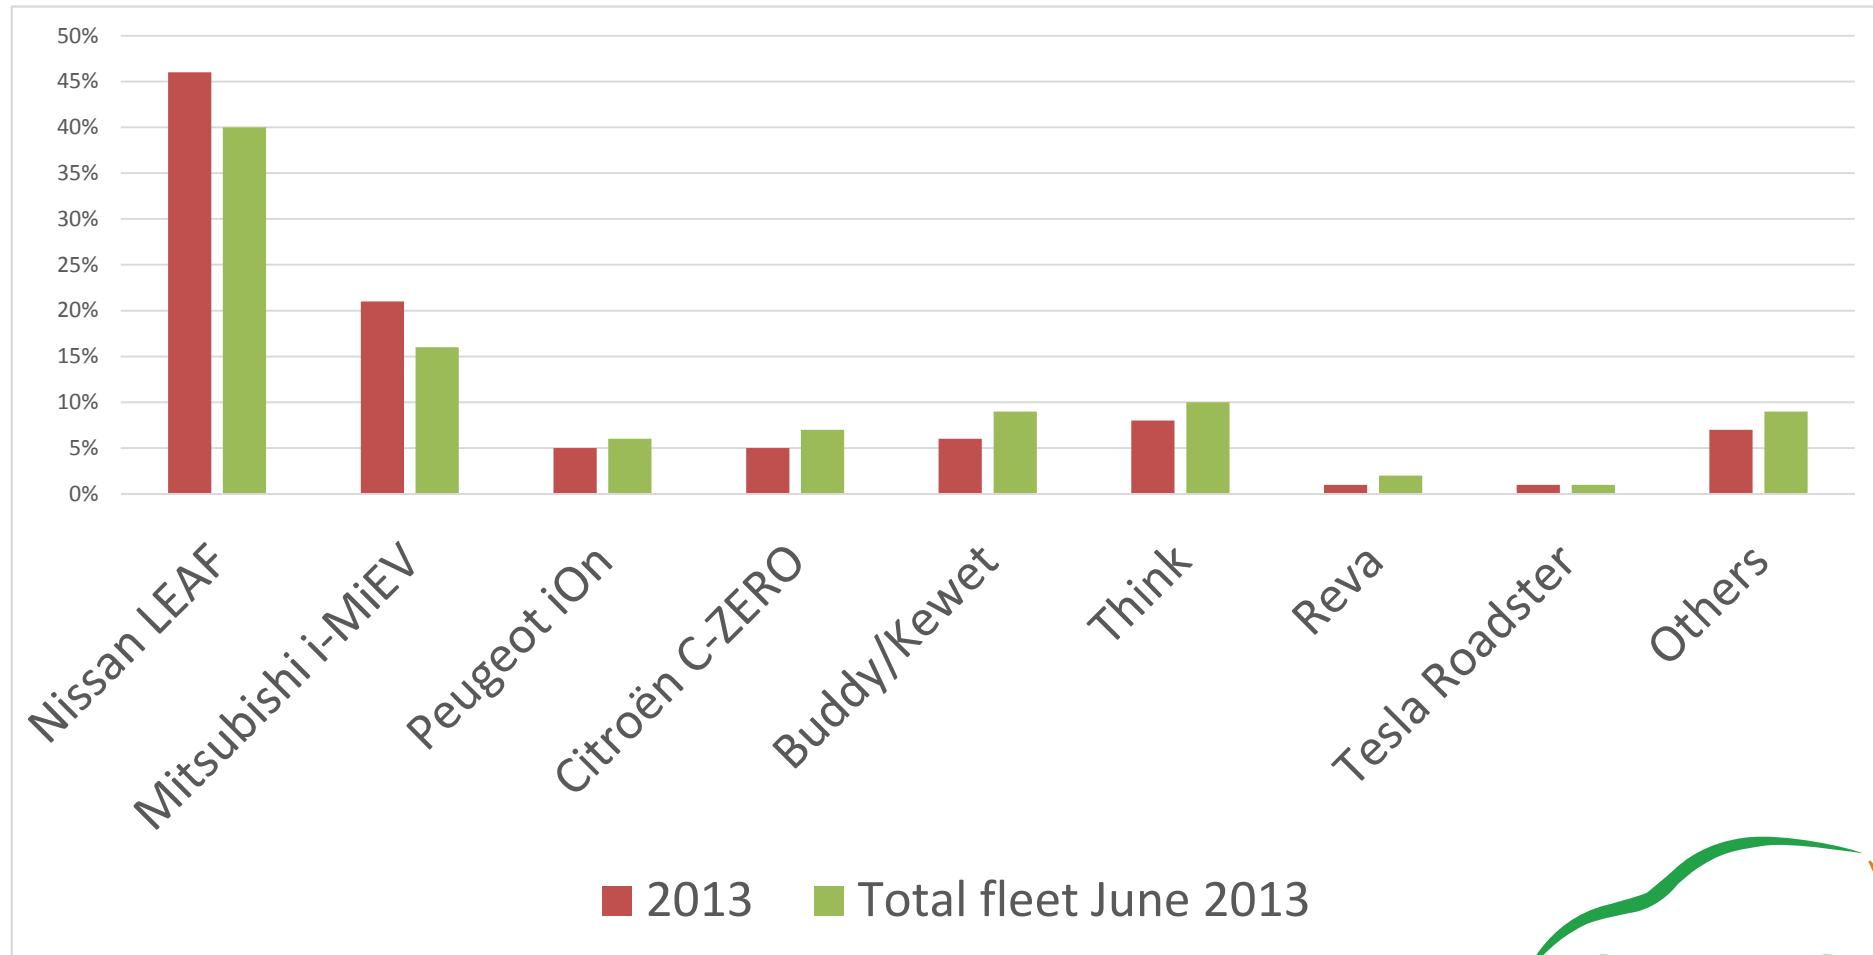

Conclusions

- Norwegian EV users are very satisfied with their electric car
- Suggestions for improvements:
 1. The EV industry should increase the range of the electric car
 2. The government should make the EV policy predictable
